EDUCATION

The Hong Kong Polytechnic University

Aug 2026 – Jun 2027

Master of Design in Intelligent Systems Design

Southern University of Science and Technology

Aug 2021 – Jun 2026

Bachelor of Engineering in Industrial Design

Scholarships: Freshman Scholarship; Outstanding Student Scholarship; Academic Development Scholarship

PUBLICATIONS

Wang, K., Qi, R., Ge, Y., An, P., & Li, X. (2025). RainbowForest: A playful educational tool to engage children with ASD in learning through play in classrooms. CHI EA '25, Article 741, 1–5.

<https://doi.org/10.1145/3706599.3721166>

Yili, W., Ge, Y., Xin, T., & Liang, H. (2026). PuffFab: Making shape-transformable rice paper for playful food fabrication. TEI '26, Article 66, 1–6. <https://doi.org/10.1145/3731459.3779326>

RESEARCH EXPERIENCE

Transformable Rice-Paper Food 3D Printing Research | *Research Assistant* **Jun 2025 – Sep 2025**

Supervisors: Prof. Xin Tong, HKUST(GZ); Prof. Liang He, The University of Texas at Dallas

- Modified 3D-printer nozzles and developed an interface for customizing the shape and color of edible rice-paper prints.
- Designed three interaction modes—cutting, moistening, and printing—to explore personalized, playful food fabrication and material transformation.
- Contributed to the TEI 2026 work-in-progress paper.

Interactive Learning Tool for Color Recognition in Children with Autism | *Research Assistant* **May 2024 – Jun 2026**

Supervisor: Prof. Xueliang Li, SUSTech

- Co-facilitated a five-day classroom field study at a special-education school in Shenzhen; collected classroom observations and video data and conducted 10 teacher interviews.
- Coded observation and interview data to identify attention and interaction patterns, then translated findings into a second-generation prototype with light-based feedback.
- Contributed to a CHI 2025 extended abstract; the prototype was selected for exhibition at a Shenzhen expo. A related paper was under review.

Human–Robot Interaction in Psychological Counseling Scenarios | Research Assistant
Oct 2023 – Apr 2024

Supervisor: Prof. Xueliang Li, SUSTech

- Built an Arduino-based prototype using touch and vibration feedback to investigate non-verbal interaction and trust in psychological counseling.
- Conducted semi-structured interviews with counselors and students and qualitatively coded the data to guide prototype iteration; contributed to a manuscript under review at ACM THRI.

INDUSTRY EXPERIENCE

Creality Co., Ltd. — Product Planning Intern	<i> Shenzhen, China</i>	Jun 2024 – Sep 2024
• Conducted user research and competitive analysis; produced 100+ pages of product and requirements documentation. • Created user journeys and functional architectures and collaborated with designers and developers on UI and interaction iterations.		
Lean In Shenzhen — New Media Design Intern	<i> Shenzhen, China</i>	Mar 2024 – Jun 2024
• Planned webinars and workshops and designed posters, brochures, exhibition materials, and videos for public-facing events.		
Tencent CDC User Research & Experience Design Center — Corporate Intern	<i> Shenzhen, China</i>	Apr 2023 – Jun 2023
• Participated in Tencent CDC User Research & Experience Design Center for the Shenzhen Mangrove Project. • Supported field research, interviews, and data collection for Project; co-produced a 30+ page research report with interaction-design recommendations.		

SELECTED HONORS & AWARDS

Dec 2024	Third Prize, 16th UXD Award	<i> National level</i>
Dec 2023	Special Excellence Award, DiD International Industrial Design Award	<i> Provincial level</i>
Dec 2023	Bronze Award, 7th Environmental Protection Art Creation Competition	<i> National level</i>
Nov 2023	Silver Award, 5th Hong Kong Contemporary Design Awards	<i> Provincial level</i>
Oct 2023	Bronze Award, 2023 British Ecology Design Award	<i> National level</i>

METHODS & TECHNICAL SKILLS

Research methods:	Semi-structured interviews; qualitative coding; user research; competitive analysis; prototyping; participatory design; research-through-design
Prototyping & design:	Figma; Arduino IDE; p5.js; Processing; Rhino; Blender; TouchDesigner
Languages:	Mandarin Chinese (native); English (IELTS 6.5)
